sharing is daring
don't share your password

update often
stay safe with anti-virus, anti-spyware, anti-malware & current software releases

length is strength
guess proof your passwords
www.asu.edu/changepassword

lock down mobiles
use pins & passwords to secure your computer, phone & other mobile devices

encryption is key
make it difficult for a thief who steals your device to also steal your personal info or ASU data

be careful where you surf
some websites are harmful; look for the lock

trash unnecessary data
if you don’t need it, delete it
